DAILY SENTINEL. RUFUS KING & WM. H. WATSON, PROPRIETORS. Under the Name and Firm of Rufus King & Co.

MILWAUKEE: Saturday Morning, June 20.

The Milwankee & Mississippi R. R. We publish, this morning, a very fair and friendly article from the Chicago Democratic Press, in reference to the "Pioneer Rail Road" of our State. It does justice to the good condition, excellent management and favorable prospects of this road. The opinion is not a new one with us, nor now for the first time expressed, that the Milwaukee & Mississippi Rail Road has do a large, increasing and lucrative business .-Such, we doubt not, is the general conviction among all in this State who are familiar with its progress and prospects. In spite, however, of the good name and sound credit which the M. & M. R. P. . 19 Mys at home, it has been selected as one of the objects of attack by the "Bears" of Wall Street. Two venal presses in that city have been used in this work, and their columns contain frequent, and invariably talse statements in regard to the road. These reckless and persistent attacks have depressed the stock in the Wall Street market; but we have no idea that this depression will be permanent, any more than we believe that falsehood will always get the better, though it sometimes has the start, of truth.

It has been intimated in different quarters that these wanton, malicious and lying attacks upon the M. & M. R. R. are prompted by supposed rival R. R. interests in this State, and that some of them, at least, are endorsed, if not originated, by a Director of the La Crosse & Milwaukee R. R. Company. We have no idea that the La Crosse Company desires, or would countenance, any such warfare against the Milwaukee & Mississippi Company, any more than the latter would upon the former. Neither could be helped, while both would certainly be injured, by such a strife, and the interests and reputation of our city and State would suffer equally with those of the two Companies. There can be no possible occasion for any but a fair rivalry between them. Each has its separate and ample field, and each, therefore, should cheerfully and cordially give to the other a helping hand and a good word, whenever either would be of service. It is high time, indeed, that the Rail Road quarrels which have, at various times, disturbed our city, impaired its credit and retarded its progress, should be brought to a full and final stop. And if the supposed belliger ants themselves cannot, or will not come to terms let our business men and capitalists take the matter in hand and arrange the conditions of a

lasting peace.

THE NEWS AND THE BUFFALO COMMERCIAL. The News of yeaterday expresses the sensible opinion that it has said "more than was necessary" about the Buffalo Commercial. We think as much. The News commenced by quoting the Commercial as a Republican paper. We expos ed and branded this fabrication. The News, after owning up to its first falsehood, flew to another, to wit: that if the Commercial was not a Repub ican paper, the ticket which it supported at the Buffalo Charter election was at least a Republican ticket. This, too, we showed to be a palpable invention. The News now tries another tack and informs its readers that the Commercial " since Mr. Jewarr assumed the editorial charge " of it, has been quoted by all the Republican "papers in all parts of the country." It is not very easy to decide whether this is a stupid blunder, or a deliberate falsehood. At any rate, Jewett is not, and has not been editor of the Commercial. Lastly the News raises the stale stop thiof cry" and seeks to conceal its own alliance and affinities with the Know Nothings, to charging these sins upon the Republicans. Dut it has resorted to this trick so often and been to invisibly couply at it that it can be larger short. invariably caught at it, that it can no longer sheat oders. The fact that the News i " hand and glove" with the Missouri Border Ruifians, who have deliberately disfranchised thousands of foreign-boin residents of Kansas, and that this pretended friend and much professing champion of the Rights of Adopted Citizens, sustains and detends this outrage, outweighs all the empty, mouthing, demagogueical declarations with which its liveried columns teem.

THE NEW REPUBLICAN U. S. SENATOR PROM New Hampshire .-- The Manchester, N. 11, American furnishes a sketch of the life of Dan IEL CLARK, the newly elected republican senator from New Hampshire. He was born in Stratham, N. H., in 1809, obtained his academic education at Hampton, and graduated at Darimouth College in 1884. He then studied law in the office of John Sullivan and the late senator Bell in Exeter, and commenced practice at Epping in 1837. In 1839 he moved to Manchester, where he has since resided. He has been for some time regarded as standing at the head of the bar of Hillsboro' county. He represented Manchester in the legislature five years, and was last year one of the presidential electors. Mr. CLARK Was a whig, and adhered to the anti-slavery doctrine of that party in the days of the reaction, oppos ing the fugitive slave act. When the Missouri compromise was repealed, he opposed the outrage with great zeal and fidelity, and his speech es did much to arouse the legislature to a senso of the baseness of that act.

IMPORTANT NEWS .- The Cincinnati Gazette learns that U. S. authorides are preparing to ar rest and bring to trial all who took part, in the proceedings against the U. S. Deputy Marshals in Greene County recently, and they intend to spare no pains to demolish the stations, tear up the rails, and remove all traces of the underground railroad in Ohio. All fugitive slave arrests are to be conducted in perfect quietnoss hereafter, and no man is to be allowed to speak against slavery londer than a whisper. It is a second to the same of the rest and bring to trial all who took part, in the good deal of work to lay out for one season.

THE "GREAT EASTERN" STEAMSHIP.—The telegraph announced, a day or two since, that the New Yorkers have succeeded in finding a sufficiently deep channel, 35 feet water at high tide, for them ammoth steamship to get to their city, coming through Long Island Sound, and stopping north of Hurlgate. One of the city Railroads runs to this point. It has been supposed that no harbor except that of Portland could accommodate the steamer, and we believe the authorities of that city have gone to some expense to prepare for her.

" MONSIEUR TONSON COME AGAIN."-Mr John Jones, formerly editor of the Madisonian, John Tyler's organ at Washington, has turned up in Philadelphia, where he is about to issue a paper devoted to the interests of cotton and slavery, and proposing to teach the Pennsylvania Quakers to receive the Dred Scott decision, and love the "peculiar institution."

MINEBAL POINT R. R. COMPLETED,-The Mineral Point Tribune of the 16th announces the completion of the railroad track, and the running of the cars to the depot in that city. Ground was broken for the road 4 years ago, and its progress has been impeded from time to time by various misfortunes—the Schuyler failure, we believe, being one of them-but the work is done at last, and our friends of Mineral Point rejoice greatly thereat, as well they may.

> INPORTANT DECISION .- It appears from a late case that the British Government has abandoned its old doctrine of "once a subject, always a ubject."

The case in regard to which the decision is nade is that of Mr. Lawless, a merchant of Granada, and a non-combatant in the late Nicaraguan roubles. He was dragged out of his house and shot by the Guatemalans, when they took Grenada. He was formerly a British subject, but W. H. Morgan, Esq. It has about 50 saws running, conisting of gangs and circulars, and has six steam engines, of 20 to 40 horse power each. They commenced running the mill while I was there, and it was coufidently anticipated that they would turn out 12 or 13,000,000 feet this season. There is one store at that village kept by ekauna. During the summer season the place bears quite a business aspect as several vessels can be seen lying at the mouth of the river taking in lumber. With a small appropriation from Uncle Sam, the month of the Menomonee could be made one of the best harbors on the Lakes, as there is now seven feet of water on the

bar with twenty feet outside. The river at the mouth is about three fourths of a mile wide, and a narrow strip of sandy beach forms the Michigan side of the river. Half a forms the Michigan side of the fiver. And a threshing.

On the Wisconsin side a mile or two farther up is the new mill of Mr. Ludington and Mr. Wells of your city. They were getting the machinery to work. It consists one gang, muley, circular, and siding machine and is capably of cutting out 50 or 60,000 feet per pay.

At the dam higher up on the Wisconsin side is the millof Messrs. Some 4,000 logs went out into the Bay this pring. Some of them will be recovered.

The dam is located on the rapids about three miles from the mouth of the river. The rapids are about three-fourths of a mile in length and descend about 21 feet. It is one of the best water powers in the north cast part of the State. There are no settlements on the Monomonee above the dam, although there are some good farming lands to be found on each side of the river. Minekaura is in the same latitude as St. Paul, and being protected by the timber lands I presume does not suffer from cold so severely as the timberless regions of Minuesota.

FROM KANSAS. GREAT MEETING AT BIG SPRINGS. Speeches from Walker, Stanton and Jim Lane.

FROM OUR SPECIAL CORGESPONDENT. FROM OUR SPECIAL CORGESPONDENT.]

Topeks, K. T., June 11, 1857.

There was a great meeting yesterday at Big Spring, some ten miles from this place.

The citizens of Lecompton and Tecumsen (the only Pro-Slavery towns left in the Territory,) turned out en mass, but were outnumbered by the Free State men five to one.

A little after two o'clock Gov. Walker took the stand, and like a base coward abused the Free State Legislature and the Topeka Constitu-

lent farming lands on the stream and west of the mills. The State road is laid out from Green
Bay to Misekauna, through Clarksville.

Twelve miles from Peshtigo the steamer runs into the Menomonee River, and ties up at the dock of the New York Lumber Co. Here is a settlement of 20 or 25 families besides the boarding house for the mill.

The mills of the New York Co., are worthy of notice from the fact that they are the largest in the State. Messrs. O. C. Hosnier and H. Fowler of Chicago, are the principal owners. During the pass a inter-tich ment of the stand.

The mass a large of the stand.

But the Secretary was out of ammention, and lane got the stand.

The General made one of the best speechts that I ever heard bin deliver, took down Walker in a most satisfactory manner, and sustained the Topeka movement right strongly.

The speech was received with great enthusing and the nrg sharerites grew year maler. asm, and the pro-slaveryites grew very melan-choly and serious. Walker's apostacy has created a deal, of in-

Walker's apostacy has created a deal, of indignation hereabouts, and his accommodating his views and sentiments to different occasions and circumstances, has not had a rendency to increase confidence in his integrity. For one, I am completely disgusted with the Lilliputant demagogue, and teel satisfied that his aim and desire is to distract and divide the Free State party without any regard to the best interests of Kansas. Quite an incident occurred during the day,

which is too good to be lost.
Attorney General Weir, having become somewhat nervous and excited, asserted that the Free what nervous and excited, asserted that the Free State men were a set of d-d cowards.

Judge Smith, a man of fifty years or more, overheard the expression, and proclaimed it false. Weir didn't like the lie direct, and told the Judge that his age alone protected him from

Weir finding that he had a man to deal with backed out ingloriously by asserting that the Judge was surrounded by friends; to which the Judge promptly replied that they could go out alone on the prairie and fight it out.

This worded the Attorney General still more, and he finally vamosed in a most cowardly manner.

ner.
After Lane had linished his speech, Perrin tried to make his old and stereotyped address, but the people having heard it two or three times, left the house with a rush, and Pertia found bimself without an audience. found bimself without an audienze.

The events of the day have been quite significant. Walker has shown his true colors—
proved himself a traitor and an apostate. Stanton has sunk himself even lower (if this be possible)

than ever in public estimation. The plot and than ever in public estimation. The plot and scheme of the Federal Administration have been developed and the people have shown themselves as true as ever to the principles for which they have so long struggled.

Three times three, say I, for Free Kansas and the Free State party thereof. From the Chicago Press of the 19th.

Our readers will recollect that we have always claimed the western division of this road from Madison to Prairie du Chien as a part of the Chiego system of Railways. Some of our Milwankee cotemporaries have affected to regard this as an unwarrantable appropriation of what belongs specially to them. But we have not the least disposition in the world to tretch upon the rights of our ejeter city. The road was built by the enterprising capitalists of Milwankee, and they should enjor, without rivalry and jealousy, all the advantages—and they are many and most valuable—to which their foresight and energy it building this road entitle them. All, we meant to claim is that this company would find it for their advantage to send such passengers as wished to Milwankee & Mississippi Railroad. chain is that this could have the same divertage to send such passengers as wished to come direct from Frairle du Chien to Chicago, from Madison, or as the roads now can, from A branch railroad will connect with the Land Grant R. R., which will convey the iron orse found on both sides of the Menomonee, for smelting or shipment, to the town which must eventually be built up at its mouth.

The Menomonee is celebrated for its sturgeon and other kinds of fish. The former are caught when the containing the miles above Galena.

We have before us the roads up or Ten, from Madison, or as the roads upon Ten, from Madison, o

du Lac R. ilroad, arriving at Prai-rie du Chien at 330 P M, where passengers will ind a steamer lying at the depet ready to rereive them.

COUNTERFEITER ARRESTED .-- John Owens, alias, of Memphis, Tenn., was arrested in this city, yesterday by officer Panatoo, charged with passing counterfeil \$5 bills on the Chippews Bank, Pepin, Wis. After his arrest he threw from his pocket a package contain-ing two hundred dollars of this sportous currency; and in searching his person thirty dollars more was found or him. They are very good imitations of the genuine bills and are well calculated to deceive.

CRICAGO LIGHT GUARD.-We are happy to hear that the Chicago Light Guard, one of the finest military Companies in the North West, intend to honor our city by a visit on the coming Fourth of July. The Mil-wankse Light Guard meet at their Armory file (Satur day) evening at 8 o'clock, to make arrangements for re-ceiving and welcoming their expected guests. LETTERS UNCALLED FOR .-- The following let-

tern have been addressed to our care, and have not been called for...
Two for Mrs. Sarah M. Van Buskirk; two for C. L. Hawes, and one for John Eibschester.
The latter is from England, and has been in our office.

for nearly two months.

A Steam Fire Engine.

Memas Epitons :-- A paragraph in this morning's Sentituel Induced me to pay a visit to the Steam Pile Driver, at wirk on Beiroit street. While there, the thought struck me that a Portable Engine of this sort, fitted up with a powerful Saction and Force Pump, would be an inval nable ally to our Fire Department, in case of a large fire Following up the thought, I was informed by reliable par-ties that a Steam Fire Engine of this kind, only much more portable and compact, could be constructed for about \$2,000, which is considerably less than one half o the price of those made in the cast.
Taking into consideration the fact that an Eugine of

this description would throw a constant, steady, untiring atream of water, equal in volume to that produced by two
of the best hand engines in use; the cost is certainly
but trifling, and the subject seems well worthy the atten
ition of our Council, to whose consideration I leave it. Yours respectfully, Milwacker, June 19, 1857.

WHOLESALE DRUGGISTS. - We would call the attention of merchants in the country and retail dealer. in the city, to the new advertisement of Mesers. H. Bos-worth & Sons, which will be found in another column this morning. Mesers. A HOME FOR ALL.

A. A. Selling lots in Palmer & Oo's Addition, in the Pourth Ward, and lying between Enring street on the north, and Yowier street on the aouth, upon each terms as will enable Laboniso Mar, Mackanica and Tamberson of small mean to obtain a HOME all their own. This tract is about 30 minutes walk went from the Spring street bridge in one of the healthlest portions of the city, has a fine commanding view of the Harber, Rallycad Depots, Lake, 2c., it high and saffetently rolling for draluage, has an easy grade, and is intersected by attects that are soon to be the most prominent avenues of the city. Already some of the Prake-class mansams are built upon Spring street in front of these lots, to which point the street is graded and finished with wide and commodition plants walks. As an investment merely, these lots offer inducements worthly of consideration, so its confidently believed that no property in the city is offered upon terms that promise so certain and large an advance. Our system of small monthly installments without interest, is a feature to which we call expected attention. Persons wishing to purchase lots will do well to call upon the subscriber, who will show them maps of the property, explain the terms, ac. Young men have here an opportunity to become freehelders by laying aside a small sun from their monthly carnings, and which in a short time will make thom independent by the advance of property.
